

SYMPOSIUM PROGRAM

Hyperbaric Oxygenation And The Future Of Healing

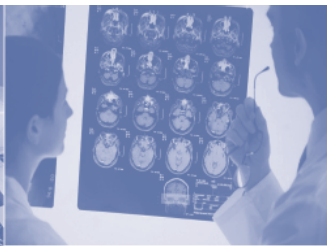

The 7th Annual International Symposium

Putting the vision into practice

JULY 22 – 25, 2010 • IRVINE, CALIFORNIA

www.HBOT2010.net

Visit us at booth #27

PRODUCTS:

- Multiplace Clinical HBO Chambers in any size including segmented and containerized chambers
- Small footprint, sit-up format monoplace chamber
- Altitude physiology training chambers
- Research chambers
- Mobile hyperbaric units
- Veterinary chambers
- Breathing simulators for performance testing
- Oxygen manifolds and gas selection panels
- TCOM and utility penetrators
- Air ventilation conversion for monoplace chambers
- Hood drivers
- And more

SERVICES:

- Oxygen service solutions to fit all sites and needs
- Site design and development
- Turnkey site installation services
- Field re-window services
- Overhaul, relocation and maintenance
- Operations & emergency procedures, Safety surveys
- CAD design and conversion
- Fabrication design & shop drawing review
- Appraisals
- And more

REIMERS SYSTEMS - A TRUSTED NAME IN HYPERBARIC INDUSTRY

WELCOME TO THE 7TH INTERNATIONAL SYMPOSIUM

**Donald L.
Jolly-Gabriel Ph.D.**

“The legacy that was left by my great friend, the late Dr. Richard Neubeuer was considerable. His dedication to not only enhancing the lives of so many through HBOT, but informing and educating others by orchestrating his International Symposiums for over a decade was tremendous. As a pioneer in this medicine, his name will never diminish.

It has been an honor to continue to carry Dr. Neubeuer's torch with these educational symposiums and I warmly welcome you to HBOT2010, the 7th International Symposium. It's exciting to see so many new faces attending this year, from respected speakers to new exhibitors and delegates.

Particular thanks are extended to Winnie Neubauer who is again joining us from South Florida and Professor K.K.Jain who has travelled from Switzerland. Your attendance is greatly appreciated!

Please enjoy the next 3 days.”

MEET THE GUEST SPEAKERS

WHEN: THURSDAY JULY 22nd between 7:00pm and 9:00pm WHERE: EXHIBITION HALL

Dr. Stephen Bizal, D.C. Newport Beach, CA

Dr. Adam Breiner, N.D. Trumbull, CT

Francisco Contreras, M.D. California

Kevan Corson, C.H.T. National City, CA

Dr. Nick Delgado Costa Mesa, CA

William Duncan, Ph. D. Washington, DC

Paul G. Harch, M.D. (remote video)

Dr. Carol L. Henricks, Tucson, AZ

Professor K.K. Jain, MD. Switzerland

Donald Jolly-Gabriel, PH.D. Irvine, CA

Penelope S. Montgomery, Ph.D. Bellevue, WA

Robert E. Moffit Ph.D. Washington, DC

Arun Mukherjee, MBBS, MD. Delhi, India

Matt Nadeau Canada

Ed Nemeth Sacramento, CA

Stephen D. Reimers, PE. Lorton, VA

Karen Simmons, Edmonton, Canada

Dr. David Steenblock Mission Viejo, CA

Nina Subbotina, MD, Ph.D. Buenos Aires, Argentina

Dr. Darryl J Werner, M.D. Santa Ana, CA

Dr. Julian Whitaker, M.D. APCT Newport Beach, CA

DAY 1: FRIDAY, JULY 23, 2010

REGISTRATION: STARTS AT 7:00AM		LOCATION: THE EXHIBITION HALL
7:30am – 8:30am	CONTINENTAL BREAKFAST	
8:30am – 8:45am	WELCOMING CEREMONY Donald L. Jolly Ph.D Mark Thaler	Introduction Conference Explanation
8:45am – 9:30am	Dr. Paul Harch (Video Presentation)	"TBI, PTSD, his present veteran's pilot study and his upcoming national study NBIRR"
9:30am – 10:15am	Dr. Penelope Montgomery Co Presenter with Dr. Adam Breiner	"Real-Time EEG Neurobiofeedback and its use in Traumatic Brain Injuries, Strokes and Comas"
10:15am – 11:00am	Mid Morning Break inside Expo hall	
11:00am – 12:00pm	Prof. K.K. Jain, MD	"HBO in the management of neurological disorders in the era of biotechnology"
12:00pm – 12:15pm	Matt Nadeau	"HBOT experience from a patient-Success Story"
12:15pm – 1:30pm	Author: Karen Simmons	"Chicken Soup for the Soul"
	Author: Prof. K.K.Jain,MD Kindly Sponsored by: HOGREFE	"Textbook of Hyperbaric Medicine"
1:30pm – 2:15pm	Expo	
2:15pm – 3:00pm	Steve Reimers	"A its Mechanism for Blast-Related Brain Injury and Implications"
3:00pm – 3:45pm	William Duncan, Ph.D.	"National Brain Injury Rescue & Rehabilitation Project (NBIRR)"
3:45pm – 4:00pm	Afternoon Break inside Expo Hall	
4:00pm – 4:45pm	Dr. Robert Moffit	"The next steps in health reform"
4:45pm – 5:30pm	Dr. Stephen Bizal D.C.	"Healing vs. Healthcare...Improving Hyperbaric Treatment Outcomes"
5:30pm – 6:00pm	Questions & Answers – Panel	
Evening	Free to Network	

DAY 2: SATURDAY, JULY 24, 2010

REGISTRATION: STARTS AT 7:00AM		LOCATION: THE EXHIBITION HALL
7:30am – 8:30am	CONTINENTAL BREAKFAST	Sponsored by Jean Mahlum
8:30am – 9:15am	Dr. Francisco Contreras, MD	"Hyperbaric Oxygen Medicine in Cancer Treatment"
9:15am – 10:00am	Dr. Carol Henricks	"Ani: A Case Study"
10:00am – 10:30am	Mid Morning Break inside Expo hall	
10:30am – 11:15am	Dr. Arun Mukherjee	"HBOT in Children: 9 years experience at UDAAN in India"
11:15am – 12:00pm	Dr. Julian Whitaker, MD, APCT	Pressure, Oxygen and CO2
12:00pm – 1:00pm	Dr. Darryl J Werner, MD	Topic 1 - "Diabetic Lower Extremity Wounds and Hyperbaric Oxygen Therapy Think Donuts not Holes" Topic 2 – "Wound Care"
1:00pm – 2:30pm	EVENT: LUNCH AND EXPO	
2:30pm – 3:15pm	Dr. Nick Delgado	"Disease and obesity can be reversed naturally"
3:15pm – 3:40pm	Dr. Nina Subbotina	"Hyperbaric oxygen for carbon monoxide poisoning"
3:40pm – 4:00pm	Ed Nemeth	"Study of the effect of HBOT on behavioral and Language measures in children with autism"
4:00pm – 4:15pm	Afternoon Break inside Expo Hall (Expo closes after break)	
4:15pm – 5:00pm	Questions & Answers – Panel	
6:30pm – 10:00pm	EVENT: GALA DINNER & AWARDS CEREMONY	
6:30pm – 7:00pm	Reception	Musical Tribute: Lady Mary Diane Reed and Jon A. Thomas Kuo
7:00pm – 8:30pm	Dinner	Tribute: Host – Jeremy Phillips
	Keynote Speaker: Robert Lyne-Sands, Founder & CEO Healing Chambers International	
	Topic: "The recent history of HBOT in the United States and forecasting the future of hyperbaric medicine"	
	Special Presentation: Kelly Le Brock	
8:30pm – 9:15pm	Presentation of The 2010 Richard A. Neubauer Research Institute Awards	
9:45pm – 10:00pm	Closing Remarks: Donald L. Jolly-Gabriel Ph.D	

DAY 3: SUNDAY, JULY 25, 2010

REGISTRATION: STARTS AT 7:00AM		LOCATION: THE EXHIBITION HALL
8:30am – 9:00am	CONTINENTAL BREAKFAST	
9:00am – 9:45am	Dr. Adam Breiner, ND	"Lyme Disease – A Whole-Body Approach"
9:45am – 10:30am	Dr. David Steenblock	"Hyperbaric Oxygen and Stem Cells"
10:30am – 10:45am	Mid Morning Break	
10:45am – 11:30am	Kevan Corson, CHT	"The Role of Containerize Hyperbaric Chambers in Today's Medical Treatment Environment"
11.30am – 11:45am	Farewell from Dr Jolly	
11:45am – 12:15pm	Travel to Hyperbaric Center	
12:15pm – 1:30pm	Lunch and Tour of Hyperbaric Center	
1:30pm	Symposium Conclusion

FLOOR PLAN

A SPECIAL "MEET THE AUTHOR'S" LUNCHEON

Dr. Jolly-Gabriel
comments:

During past HBOT symposiums, we have been privileged to be joined by world renowned authors who have shared some of their amazing and courageous stories. For HBOT2010, our good fortunes have been exceeded in greeting such eminent people as Karen Simmons and Professor K K Jain.

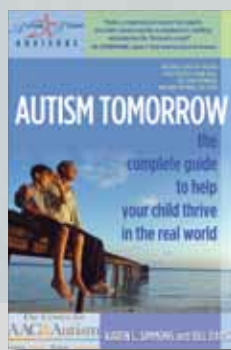

It's an honor to welcome Karen, who having created and developed the world's largest online resource for autism spectrum disorders, is without doubt, the leading authority on this subject. Equal heartfelt gratitude goes out to Professor Jain who has done an exceptional job in providing the most clear understanding of the principles regarding HBOT. We warmly welcome you both to HBOT2010!

"Chicken Soup for the Soul" is one of the most well recognized and best-selling book series on the planet and has become ingrained in our hearts like stories from the bible.

Karen Simmons is CEO and Founder of *Autism Today*. Ms. Simmons will tell the audience how the book was born, a little about her own children with special needs and share special heart-felt stories from this highly acclaimed book. Ms Simmons's passion has led her to create many titles, one of which is the "The Official Autism 101 Manual" which won the IPPY Gold Medal in the medicine category and the newly released "Autism Tomorrow", The Complete Guide to helping your Child Thrive in the Real World.

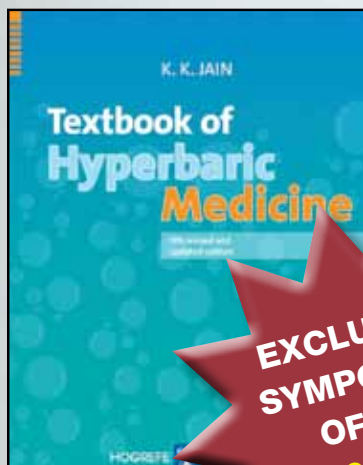

Karen Simmons

Ms. Simmons will be available for book signings following the presentation.

WHEN: FRIDAY July 23rd between 12:15pm and 1:30pm WHERE: TUSCANY BALLROOM

**EXCLUSIVE

This textbook, now appearing in its 5th, fully updated and expanded edition, has become widely recognized as the best exposition available on the topic of hyperbaric medicine and the wide range of applications of hyperbaric oxygen (HBO).

K. K. Jain is a retired professor and is now a consultant in neurology and hyperbaric medicine. He worked for 25 years in various academic positions and private practice worldwide mostly in Europe and North America. He set up a program for rehabilitation of stroke patients in Germany and wrote the first Handbook of Hyperbaric Oxygen Therapy in 1977, which evolved into the Textbook of Hyperbaric Medicine and is in 5th edition as of 2009. He has been involved in research in biotechnology since 1989 when he moved to Switzerland and is the author of over 415 publications including 16 books and 48 special reports.

Prof. K. K. Jain

Professor K.K. Jain will be available for book signings following the presentation.

*Authors Luncheon

HOGREFE

THE RICHARD A. NEUBAUER RESEARCH INSTITUTE

During a long and distinguished life, Richard A. Neubauer, M.D. was internationally recognized as a pioneer in the application of hyperbaric oxygen therapy for a variety of neurologic and related disorders. He remained active with research and clinical work throughout his career and was always willing to share his great knowledge and expertise with colleagues, patients and the wider audience.

The Richard A Neubauer Research Institute is a “non-profit” registered organization that has been set up in his name to further the research, medical improvements and education in this area.

Richard A. Neubauer Research Institute Awards 2010

HBOT 2010 is providing an opportunity to recognize those individuals, groups of people or organizations who have demonstrated contributions and accomplishments above and beyond expectations.

The Categories

- Most innovative use of Hyperbaric Oxygenation
- Hyperbaric Doctor of the Year
- Hyperbaric Center of the Year
- Hyperbaric Technician of the Year
- Hyperbaric Caregiver of the Year
- Wound Care Center
- Special Children's Award

GALA DINNER IN THE GRAND BALLROOM SALON D

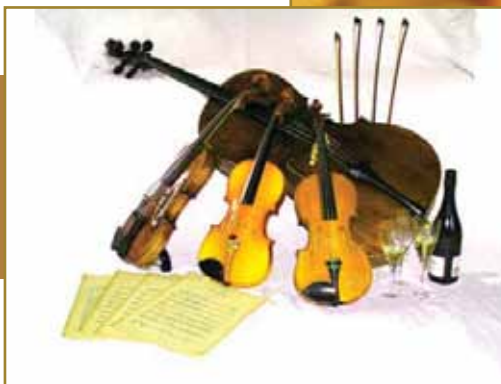

WHEN: SAT July 25th Cocktails at 6:30pm DINNER at 7:00pm ATTIRE: Business Dress

Gala Dinner

This years' Gala Dinner promises to be a memorable evening in celebrating lives and recognizing those who unselfishly pursue greater understanding and acceptance of HBOT.

MUSICAL TRIBUTE:

Lady Mary Diane Reed
and Jon A. Thomas Kuo

SPECIAL KEYNOTE SPEAKER:

Robert Lyne-Sands

Topic: *The recent history of HBOT in the United States and forecasting the future of hyperbaric medicine*

SPECIAL PRESENTATION:

Kelly Le Brock

PRESENTATION OF THE 2010 RICHARD A. NEUBAUER RESEARCH INSTITUTE AWARDS:

Winnie Neubauer

CENTER FOR NEW MEDICINE HYPERBARICS

Serving the community with traditional, alternative
and complementary medicine.

Now available oxygen therapies and
sleep analysis and solutions.

booth 17

- *The Official Autism 101 Manual* (Reg. \$59)
- *Biomedical 10 DVD Set* (Reg. \$199.97)
- *Physician's Training* (Reg. \$130)
- *Autism Tomorrow* (Reg. \$29.95)

- What exactly are autism spectrum disorders?
- Early diagnosis equals best outcome
- Autism and ADHD
- Theories on the causes of rising rates
- The 'buzz' about mercury
- Where to begin after diagnosis
- Family and spouse emotional support
- Positive parent-physician partnerships
- Positive school planning
- Adolescents with autism and Asperger's Syndrome
- Building self-esteem
- Leading methodologies, therapies, and treatments

- Recent breakthroughs in natural treatments
- Evidence-based Information
- Current intervention methodologies
- Reducing environmental exposures
- Manifestations of chemical toxicity
- Environmental exposures and health

Physicians
Training

- Multi-faceted, whole-body approach
- How to review all signs & symptoms
- Using extensive metabolic, gastrointestinal & immunological testing utilizing blood, urine, stool, and hair samples
- Test Interpretation & how to design and implement a comprehensive and individualized treatment program based on each individual's clinical and metabolic presentation
- The role of nutritional supplements and dietary interventions in healing your patient

"What do we do now?"
"Where do we go from here?"
"Where will my child live?"
"Will they get married and have children?"
"How will they get along in the real world?"

Are you too addicted to excellence?

We can help you achieve your goal

Excellence is the fruit that comes from productive planning. Designed around the needs of the patient and the operator – *function over form*. Sands Chambers provide the essence of this. Emerging from more than two decades of clinical and emergency response experience, these innovative low cost hospital-ready chambers are now available for you to incorporate into your hyperbaric future

Elegant and Comfortable

This versatile chamber springs from the proven design skills of Sands Corporations, designer and patent holder of the unique transportable chambers now used around the World as well as by the U.S. Navy, Coast Guard and U.S. Marine Corp

The design criteria of the Sands Clinical Chambers is simple . . . respond to the needs of both the patients and operators.

Patients with decubitus ulcers with their unique positioning requirements to reduce pressure or sheer on the wound were considered. Patients, from infants to the elderly, tiny or large (up to 500lbs.) were factored into the design.

Coma patients, large or obese patients, tummy-tuck and breast reconstruction are easily and safely loaded into the comfortable "zero-gravity" chair. No uncomfortable masks or hoods are used. The Sands chamber is perfect for plastic surgery patient recovery.

The astronaut style variable positioning recline chair can be instantly converted to a flat bed chamber. Large windows reduce and eliminate the apprehension of confinement anxiety and allow constant visual contact between the operator and patient.

Economy, Reliability & Safety

§§ The Sands chamber costs about the same as the primitive looks-almost-the-same, blue-colored newcomer to the market. However the Sands Chamber has all of the features of its hospital-grade acrylic-tube cousins.

§§ The Sands Chamber cost is 25% to 30% less than the hospital-grade acrylic tube chamber but not only boasts of the same technology, but greater versatility.

§§ The Sands Chamber uses less than a quarter of the oxygen for each treatment than any of its acrylic-tube monoplace competitors. Cost of oxygen is a significant factor when calculating treatment costs in a competitive free-standing environment.

§§ Up to four chambers can be safely operated simultaneously by a single technician from a remote console, thereby reducing human resource (staff) costs.

Sands chambers have been in constant use for more than sixteen years in the U.S., Southeast Asia and South America with no treatment downtime reported. Rugged steel, Sands chambers weigh less than a third of acrylic tube chambers. *It is the only monoplace chamber that has full Class A fire-suppression system as an optional extra.*
